* Quarterly financial reports are not required to be subjected to quarterly reviews.

* Proper use of forecast of results, and other special matters

Earnings estimates made in this report and other statements that are not historical facts are forward-looking statements about the future performance of the IHI Group. These statements are based on management’s assumptions and beliefs in light of the information currently available to it and therefore readers should not place undue reliance on them. IHI cautions that a number of important factors such as political and general economic conditions and currency exchange rates could cause actual results to differ materially from those discussed in the forward-looking statements, etc. For preconditions for forecast of results, please refer to “(3) EXPLANATION REGARDING FUTURE PREDICTION INFORMATION SUCH AS CONSOLIDATED FORECASTS OF RESULTS” of “1. QUALITATIVE INFORMATION REGARDING CONSOLIDATED RESULTS” on page 5.

1. QUALITATIVE INFORMATION REGARDING CONSOLIDATED RESULTS

(1) EXPLANATION REGARDING BUSINESS RESULTS

Summary of consolidated performance for the three months ended June 30, 2018

During the three months under review of the Japanese economy, corporate earnings maintained on a trend of improvement and remained stable, as there continued to be a mild increase in capital investment and a pick-up in private consumption. The global economy also continued to exhibit moderate growth overall, bolstered by steady growth in the U.S., despite the uncertain outlook regarding U.S. trade problems and policies in Europe.

Under this business environment, orders received of the IHI Group during the three months under review decreased 16.8% from the previous corresponding period to ¥241.6 billion. Net sales decreased 16.2% from the previous corresponding period to ¥337.1 billion.

In terms of profit, operating profit decreased ¥12.7 billion to ¥12.7 billion due mainly to the deterioration of profitability owing to increases in the number of new-model engines sold in the Civil aero engines business. Ordinary profit decreased ¥5.0 billion to ¥16.7 billion, which the amounts of decrease in profit diminished due to the positive turn in share of profit of entities accounted for using equity method and the decrease in expenses for delayed delivery.

Profit attributable to owners of parent was ¥6.1 billion, a decrease of ¥5.5 billion, as a result of recording of income taxes for prior periods etc.

Also effective from the previous fiscal year, the closing date of the fiscal year of certain overseas consolidated subsidiaries has been changed from December 31 to March 31. As a result, those consolidated subsidiaries had a six-month accounting period in the three months ended June 30, 2017. The effect of these changes was an increase of ¥57.9 billion in net sales and an increase of ¥1.4 billion in operating profit.

Results by reportable segment for the three months under review are as follows:

(2) EXPLANATION REGARDING CONSOLIDATED FINANCIAL POSITION

Assets and liabilities, and net assets

Total assets at the end of the first quarter under review were ¥1,628.8 billion, down ¥4.6 billion compared with the end of the previous fiscal year. The items with the most significant decreases were notes and accounts receivable - trade, down ¥22.7 billion and cash and deposits, down ¥15.0 billion. The items with the most significant increases were inventories including work in process, up ¥15.6 billion and investment securities, up ¥11.4 billion.

Total liabilities were ¥1,275.9 billion, down of ¥7.3 billion compared with the end of the previous fiscal year.

The items with the most significant decreases were provision for bonuses, down ¥11.7 billion and notes and accounts payable - trade, down ¥9.9 billion. The item with the most significant increase was short-term loans payable, up ¥17.0 billion. The balance on interest-bearing debt, including lease obligations, was ¥339.5 billion, up ¥17.2 billion from the end of the previous fiscal year.

Net assets were ¥352.8 billion, up ¥2.6 billion compared with the end of the previous fiscal year. This includes profit attributable to owners of parent of ¥6.1 billion and decrease due to payment of dividends of ¥4.6 billion. As a result of the above, the ratio of equity to total assets rose from 19.9% at the end of the previous fiscal year to 20.1%.

(3) EXPLANATION REGARDING FUTURE PREDICTION INFORMATION SUCH AS CONSOLIDATED FORECASTS OF RESULTS

The global economy is expected to continue on a moderate recovery, centered on steady economic recovery in the U.S. However, there is an increasing level of uncertainty about future prospects, with ongoing downside risks for the economy such as the trends of trade problems with China, which have been triggered by the protectionist trade policies of the U.S. Furthermore, there continues to be a need for caution regarding the rise in global geopolitical risks.

Also in the business environment surrounding the IHI Group, there are escalating risks of occurring sudden changes such as the global increasing interest in responding to environmental regulations including decarbonization and a switch to electric vehicles, and as the innovation of IoT technologies. The Group must accelerate initiatives for responding those changes.

In spite of these circumstances, the IHI Group's consolidated forecasts of results for the full fiscal year ending March 31, 2019 remain unchanged from previous forecasts announced on May 9, 2018.

Note that foreign exchange rates of ¥105/US\$1 and ¥130/EUR1 have been assumed in the above forecasts in and after the second quarter ending September 30, 2018.

Also concerning dividends, no changes have been made to the previous forecasts.

2. MATTERS REGARDING SUMMARY INFORMATION (NOTES)

(1) CHANGES IN SIGNIFICANT SUBSIDIARIES DURING THE THREE MONTHS UNDER REVIEW

Not applicable

(2) APPLICATION OF SPECIAL ACCOUNTING FOR PREPARING QUARTERLY CONSOLIDATED FINANCIAL STATEMENTS

Tax expense calculation

Tax expenses on profit before income taxes for the three months under review are calculated by multiplying profit before income taxes for the three months under review by the reasonably estimated effective tax rate for the fiscal year including the first quarter under review after applying tax effect accounting. Should the estimated effective tax rate be unavailable, however, tax expenses are calculated using the statutory tax rate for profit before income taxes for the three months under review.

The deferred income taxes amount is shown inclusive of income taxes.

(3) CHANGES IN ACCOUNTING POLICIES, CHANGES IN ACCOUNTING ESTIMATES, AND RESTATEMENT OF PRIOR PERIOD FINANCIAL STATEMENTS AFTER ERROR CORRECTIONS

Changes in accounting policies

Change of principal methods for hedge accounting

Forward foreign exchange rates had been applied for foreign receivables and payables under forward foreign exchange contracts if conditions had been met (the *furiate* method). Also, special treatment had been applied for interest rate swaps if conditions for the special treatment had been met.

As a result of reviewing management methods suitable for global business operation, the IHI Group changed the principal methods for hedge accounting to deferral hedge accounting in order to reflect on its consolidated financial statements more accurately the status of foreign receivables and payables and the status of derivative contracts from the first quarter under review.

The change in accounting policies are not applied retrospectively, as the effect of this change on past periods was immaterial. Moreover, the effect of this change on operating profit, ordinary profit and profit before income taxes for the three months under review was immaterial.

(4) ADDITIONAL INFORMATION

Reassessment of tax payable, based on the transfer pricing taxation, and policy response going forward

With regard to transactions between IHI and a foreign consolidated subsidiary located in Thailand conducted over the fiscal years ended March 31, 2013 to March 31, 2016, IHI received a reassessment of tax payable, based on the transfer pricing taxation, from the Tokyo Regional Taxation Bureau. In response, IHI recorded penalty taxes, including additional taxes and delinquent taxes, of ¥4,304 million on “Income taxes for prior periods.” Note that the penalty taxes were paid in July 2018.

From IHI’s perspective, with regard to the taxation system on setting of transaction prices within the corporate group (the so-called transfer pricing taxation), it is our perception that we have complied with the laws and regulations of Japan and other countries, have set appropriate transaction prices and have paid an appropriate amount of tax. In relation to this reassessment of tax payable, we plan to take necessary measures, in accordance with laws and regulations, to request that this reassessment be canceled in its entirety.

Application of the “Partial Amendments to Accounting Standard for Tax Effect Accounting” and relevant Guidances

IHI has applied the “Partial Amendments to Accounting Standard for Tax Effect Accounting” (ASBJ Statement No. 28, February 16, 2018) and relevant Guidances effective from the beginning of the first quarter under review. Accordingly, deferred tax assets were presented under “Investments and other assets” and deferred tax liabilities were presented under “Non-current liabilities.”
